

LECTURE DEMONSTRATION
Pippa Hattan BHSI and D'Or Win
"STEP BY STEP - UNLOCKING THE POTENTIAL OF YOUR HORSE"

Pippa Hattan feels that many horse and rider partnerships are capable of achieving more than they think they can. This became apparent on meeting her own horse D'Or Win, who having finished his racing career in Hong Kong, was facing an uncertain future.

Spotting his potential, Pippa took D'Or Win on to a new and exciting life, competing in a variety of disciplines, including Advanced Medium dressage and CIC1* level eventing. When she returned to England last year from working in Hong Kong, D'Or Win had to come too.

This fascinating demonstration looks at the remarkable journey taken by this special partnership whilst demonstrating and sharing ideas about how to maximise our horses' strengths to match the goals of their riders and identifying and overcoming general weaknesses. Pippa and D'Or Win will show this through both flat work and jumping and there will be ample opportunities for the audience to share their thoughts and views including a Q&A at the end over refreshments.

Whatever the capabilities of you and your horse, this will be an informative and fun evening for all concerned and we very much look forward to seeing you there!...
